

I believe that the K-signal should not be replaced by a LPFM. I grew up listening to K-Love and it had greatly impacted my life and the lives of many other listeners. K-Love plays great uplifting and encouraging Christian music. It is rare to hear anything on the radio that is not negative and that is safe for children to hear. It would be a disservice to the public for K-Love to be off the air. I fear that it would aid in the demise of America and future generations. I, for one, want my children to have the same opportunity to hear that same encouraging music and programming that I enjoy. I know many others who feel that same way. For many, K-Love is the only Christian radio they get to hear. Please don't do this disservice by replacing K-Love with an LPFM and thus hurting the vast public.
